

College of Liberal Arts

Employer Site Visit Program

The College of Liberal Arts (CLA) Employer Site Visit Program provides a unique opportunity for liberal arts students to explore career paths and experience an organization's culture. Through this program, we partner with organizations to bring a group of CLA students to you!

Goals

- Expand awareness of careers for liberal arts graduates
- Expose students to an organization's culture
- Create networking opportunities for students, alumni, and employees
- Connect you with talented students!

Benefits

- Increase visibility and brand recognition for your organization
- Promote internships and career paths
- Meet talented students who are seeking career guidance
- Showcase the neat things your organization is doing!

Format

We partner with you to customize the visit based on your unique culture, space, and needs. We recommend a group of 20 or fewer students for approximately a two-hour program. The format is flexible and can include components such as:

- Tour
- Presentation about your organization
- Highlight internship, volunteer, and full-time opportunities
- Panel and Q&A with CLA alumni and/or current employees
- Networking
- Get creative! Let us know your ideas!
